

August 21, 2017

Dear Manoa 3rd Graders,

It is going to be a great year in S.T.E.M. (Science, Technology, Engineering, Mathematics)! In class we will be designing and building projects. Therefore, we will need a lot of building supplies! We will be using re-used materials that you might be able to find around your house to build in class. During the week, please ask your parents if you can help out & bring in some re-usable supplies to school. A list of possible items is provided below. Also, if you are able to make a donation, listed below are other inexpensive items we could use to build. All items can be dropped off to Room 4 before school, after school, or during recess.

Thank you!

Mrs. Kajioka

Possible Re-usable Items

- Small boxes
- Small containers
- String/rope/yarn
- Paperclips
- CDs/DVDs
- Paper towel rolls
- (no toilet paper rolls please)**
- Thin Cardboard
- Wood (splinterless)
- washers

Inexpensive Donations

- Wooden chopsticks
- Plastic utensils
- Plastic or paper cups
- Paper plates/bowls
- Straws
- Styrofoam plates/bowls
- Foil
- Painter sticks
- Bamboo skewers

*Anything else useful!

* Please be sure all items are clean and usable!
