# FUTURE ENGINEERS

by BRICKS 4 KIDZ

## LEARN, BUILD AND PLAY

Bricks 4 kidz® teach students how to build machines, buildings, vehicles and other structures out of LEGO®, using one-of-a-kind models designed by BRICKS 4 KIDZ®. Students build a new project each week, using LEGO® Technics components such as gears, axles and beams. While exploring principles of engineering, architecture, physics and more, students will develop problem solving and critical thinking skills. Minimum 10 students needed.
